

2015-07-23 CGSync Meeting notes

Date

 23 Jul 2015

Attendees

- Thomas Cherry
- Christopher Gokey
- Chris Durbin

Questions

- Parameter query fields not in Query language
 - Updated since vs revision date - do these represent metadata update date and data update date?
 - online_only, downloadable, browse_only, browsable - which can be used to "show records with granules"?
 - collection data type - We want to be able to query for NRT, is a ticket needed for this?
- Any update on how extended metadata is mapped to additional attributes?
 - CMR-1758 - gcmd should create new ticket to get group added?
- Entry ID mappings, any talk of this?
- Is temporal "Inclusive/Exclusive"
- Still waiting for an ordered list of fields to implement in the JSON return?
- Need to freeze development on KMS, need anything from it? Instrument/Platform buckets going to work for you?
- CGSync MVP Path to Success - GCMD to add content?

Discussion Items

Time	Item	Who	Notes
	demo	GCMD	<ul style="list-style-type: none">• Demo of http://173.14.135.125/KeywordSearch3/KeywordSearchTest.html
	questions	GCMD	GCMD has question for CMR
	demo	CMR	Summary highlighting
	plans	CMR	what's coming up
